

MAXON TUK-AWAY

72 / TE SERIES

72/150

Our Tuk-A-Way[®] 72-150 gives your truck cargo handling capability up to 1500 lbs, combined with the convenience of a gate that stores neatly out of the way when not in use.

Practical and Functional

All Maxon Tuk-A-Way[®] gates feature platforms that stow out of the way when not needed and therefore accommodate dock loading. With a low-maintenance design featuring heavy-duty structural components and platforms, as well as a weather-sealed pump box to protect against the elements, Tuk-A-Way[®] gates are designed to provide long-term, reliable service.

The Original—and the Best

Maxon introduced the first Tuk-A-Way[®] lift in 1957. Since then, the concept has often been copied, but none have achieved the wide acceptance and success of our original. With 50+ years of innovation behind it, our current Tuk-A-Way[®] line offers options to fit virtually every need, on virtually every vehicle.

Key Features

- Low bed height Tuk-A-Way[®]
- Efficient, lightweight design requires minimal effort to use
- Standard ride gate
- Economical choice for lighter, general purpose applications
- Torsion spring assist platform opening and closing

MAXON TUK-AWAY

72 / TE SERIES

The Tuk-A-Way[®] TE-20 increases your lifting capacity to 2,000 lbs, and gives your truck excellent cargo handling capability, combined with the convenience of a gate that stores neatly out of the way when not in use.

Practical and Functional

All Maxon Tuk-A-Way[®] gates feature platforms that stow out of the way when not needed and therefore accommodate dock loading. With a low-maintenance design featuring heavy-duty structural components and platforms, as well as a weather-sealed pump box to protect against the elements, Tuk-A-Way[®] gates are designed to provide long-term, reliable service.
